LeetCode | CodeChef | GitHub | LinkedIn

Education

Army Institute of Technology, Pune

Aug 2023 – July 2027

Bachelor of Engineering (B.E.) in Information Technology

- **CGPA:** 7.19/10

Technical Projects

PulseIQ *Spring Boot, WebFlux, Eureka Server, RabbitMQ, PostgreSQL, API Gateway, Keycloak* — **GitHub**

- Architected a reactive **microservices** platform using **6 Spring Boot services, Spring WebFlux, Eureka Server, API Gateway, and RabbitMQ**, enabling scalable event-driven communication while maintaining **API latency** below **100 ms**
- Developed an AI-powered fitness recommendation engine by integrating **Google Gemini LLM, PostgreSQL, and MongoDB Atlas**, deliver personalized workout and nutrition recommendations with **response times** under **200 ms**
- Enhanced platform security and reliability using **Keycloak** (OAuth2/JWT), role-based **authorization**, durable **RabbitMQ** messaging, and **Resilience4j** to ensure secure and fault-tolerant distributed services

CarRental Project *React.js, Node.js, Express.js, MongoDB, ImageKit, REST APIs, Authentication* — **GitHub**

- Engineered a **full-stack car rental platform** using **React.js, Node.js, Express.js, and MongoDB**, enabling vehicle discovery, location-based search, and **real-time booking management** through **RESTful APIs**
- Built a role-based access system using **JWT authentication** and **RBAC**, providing separate user and admin workflows for vehicle inventory management, booking operations, and user administration
- Optimized media delivery and backend performance by integrating **ImageKit** for image storage and **CDN** optimization, while designing scalable **REST APIs** for efficient data management and seamless user experience

Technical Skills

Languages: C++, Java, JavaScript, SQL, Bash

IT Constructs: DSA, Object Oriented Programming, DBMS, Operating Systems, Computer Networks, System Design

Frameworks: Spring Boot, React.js, Tailwind CSS, Node.js, Express.js

Databases: MongoDB, MySQL, PostgreSQL

Tools: IntelliJ IDEA, Git, GitHub, Postman, Docker, GenAI, RabbitMQ, Keycloak, LLMs

Leadership and Experience

Adobe India Hackathon

Algorithms & Innovation

- Collaborated with a 2-member team to develop an innovative solution, reaching the Build and Connect Round (Semifinalist) among 100,000+ participants
- Collaborated on designing a scalable solution, contributing to system design, feature implementation, and technical decision-making to address a real-world problem within hackathon constraints

Genathon 2.0

Smart Campus Management Solution

- Developed a scalable web application in a 2-member team, implementing core features and delivering a functional prototype during Genathon 2.0
- Integrated secure REST APIs and MongoDB to manage user profiles, skill assessments, and personalized career-roadmap data

Honors & Achievements

- **LeetCode:** Achieved a rating of **1512** and solved **450+** DSA problems (**Profile**)
- Solved **700+** DSA problems across **LeetCode, Codeforces, GeeksforGeeks** and **HackerRank**
- Achieved a Chess.com rating of **1383** (**Profile**)
- Won 2nd Prize in Snaphunt 2K23 (**Link**)
